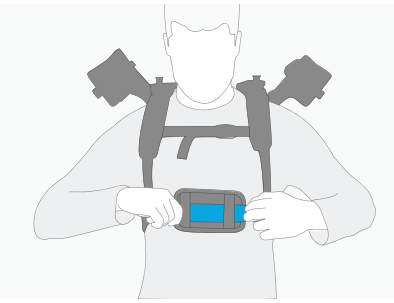
DeltaSuit
Quickstart Guide

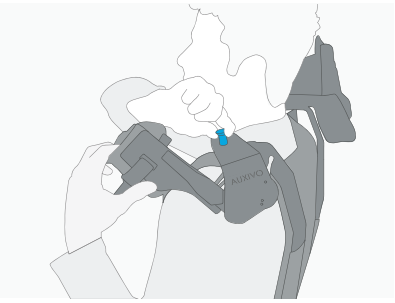
AUXIVO

Put on the DeltaSuit like a backpack.

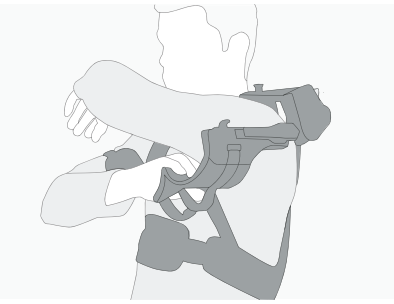


Wear the vest high on the torso and close the chest belts.

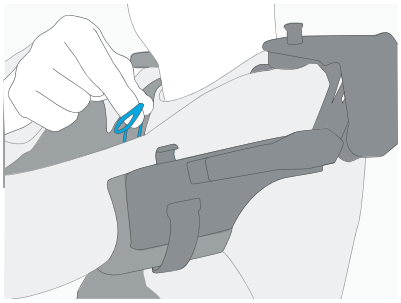
Tighten the shoulder straps to make sure the vest is worn high on the torso.



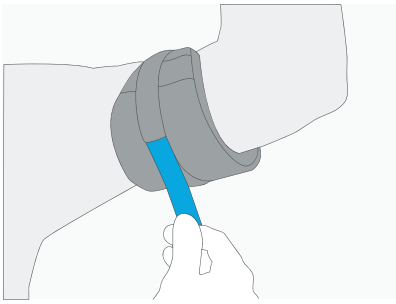
Unlock the arm cuffs using the lock pin.



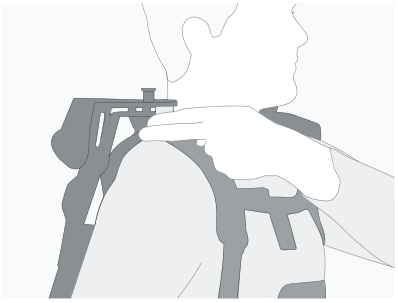
Pull arm cuff forward with opposite arm and place arm in arm cuff.



Close arm cuffs with loops.



Thighten arm cuffs using the velcro strap if needed.



When gap between shoulder and exoskeleton is less than two fingers, tighten shoulder straps more (step 4).

Watch the video tutorial for detailed instructions.
